		30	
	Total Required for Graduation		**120**

BACHELOR OF APPLIED SCIENCE DEGREE IN FIRE SERVICES ADMINISTRATION

AREA - H - Fire Services Administration Major Class Descriptions

BUSA 3100 Fire Services Special Project

Extracts and analyzes data from dispatch and fire department databases; interprets and prepares data for studies, reports and recommendations for fire departments and other public agencies. Transmits statistical data to fire and communication center computer-based systems.

MGMT 4127 Small Business Management

Introduces the fundamentals of business management, including planning, raising capital, using business information, managing employees, and marketing products and services. The course is oriented toward principles needed to operate a small business and is designed for those who may eventually have their own businesses or for those who desire to upgrade their skills in their present businesses.

MGMT 4030 Quality Management Systems

This course explores the concept of gaining a comprehensive understanding of quality management systems. Learn the most effective and business-focused strategies for implementing, documenting and auditing ISO 9001:2008 Quality Management Systems.
