Building Pathways to Academic Success.

Program

The Albany State University Summer Success Academy is a 6-week residential learning opportunity that provides incoming freshmen with the ability to get a jump start on their ASU experience. Participants will be enrolled in 7-8 credit hours depending on their cohort.

Working closely with expert faculty and supported by a network of peer advisors, learning specialists, and tutors, Academy scholars learn together as a community within and beyond the classroom. They will develop into owners of their educational experiences and leave strong and ready for the challenges of a first year in college.
