New Year	Friday	01/01/10	1
Martin L. King, Jr. Day	Monday	01/18/10	1
Memorial Day	Monday	05/31/10	1

As we conclude the 2008-2009 academic year it is an appropriate time to redistribute our holiday schedule for the 2009-2010 fiscal year.

Supervisors in areas which must provide services on holidays should permit as many of their employees as possible to follow the holiday schedule. The remaining employees should be permitted to take equivalent time off, either before or after each holiday.

The twelve authorized holidays are established as eight-hour days. Therefore, any hours over eight on an established holiday will be charged to the employee's annual leave balance. Offices must be open on all days which are not specifically designated as holidays. If days in excess of those listed are requested, the employee must file a request for annual leave in advance. Sick leave requests will not be honored for days taken immediately preceding or following the holiday periods unless they are taken as a result of a continuous illness.

Student employees and employees working on a temporary basis are not considered regular employees and are not entitled to receive holiday privileges.

Please contact Human Resources Management if you have any questions.
