

## **Greetings ASU Faculty,**

If you would like to attend an Early Alert and Progress Report Training Session, please sign up below. All new faculty and instructors are strongly encouraged to attend. The monitoring of your Progress Report submission confirms that the student is getting the appropriate interventions to ensure success in your course and will help you track this process. Our Progress Reporting system is an intentional approach to outreach and support of undergraduate students who are struggling academically early enough in the semester to help them find the resources they need to be successful at ASU.

Ahead of the training sessions, all faculty are encouraged to view the training resources located in GaView within the Training Resources folder. Please plan accordingly to attend of the sessions and register below.
