

Dylan Colvin, Ph.D | Florida Solar Energy Center (FSEC)

Bio: Prof. Colvin graduated at UCF with a B.S. of Mechanical Engineering in 2019 and a Ph.D of Materials Science and Engineering in 2022. He has been studying photovoltaic (PV) module reliability at FSEC for 7 years, starting as an undergraduate research assistant characterizing PV modules. He has experience with different methods of optoelectronic imaging, flash testing, image and data analysis, and field measurements.
