

# HBCU Clean Energy Education Seminar Series on Solar Energy

Join Us for an Exciting Seminar and Networking Opportunity Event!

Organized in collaboration with the University of Central Florida

Topic: **Solar Performance and Energy Prediction Modeling**

Date: Friday Sept. 26, 2025

Time: **12:00 PM - 1:00 PM ET**

Location: In-Person (**Free Food & Drinks Provided**) BCB143, East Campus, Albany State University

Join Virtually: **Join the meeting now Meeting ID: 224 476 078 640 2 Passcode: k6ZK9Zr3**

Are you passionate about solar energy and eager to learn more about new technologies? Join us for an insightful event featuring **Dr. Boris Lin, a Performance and Prediction Engineer at Firstsolar**. He is responsible for the continuous improvement, development and validation of solar performance and energy prediction modeling to best characterize, capture and represent the Firstsolar CdTe energy yield advantage. This event is open to all students, whether you're studying science, engineering, policy, or just want to learn more about renewable energy careers. Don't miss this opportunity to kickstart your career in the growing field of solar energy! RSVP to Dr Zheng [liqiu.zheng@asurams.edu](mailto:liqiu.zheng@asurams.edu) and secure your spot for this exciting event! We look forward to seeing you there!
