

Zhongrui (Jerry) Li, Ph.D. | University of Michigan

Bio: Dr. Jerry Li is a Research Scientist and Senior Lab Specialist at the University of Michigan.

His research focuses on energy-related materials and advanced spectroscopic techniques. His current interests include perovskite-based photovoltaic materials and the study of electron correlations in quantum materials such as cuprate superconductors and topological semimetals. He has published more than 130 peer-reviewed journal articles, two book chapters, and a monograph on X-ray absorption fine structure analysis, and holds two U.S. patents.
