# MERRILL "SLOAN" MAY

## R N , B S N

### BIOGRAPHY

---

My name is Merrill "Sloan" May, RN, BSN. I will be graduating from the MSN, FNP program from Albany State University in May 2022. I have worked in healthcare for approximately 20 years and am eager to complete this step in my life.

I graduated with my LPN in 2007. I worked as an LPN for about 11 years before going back to school to get my RN. I worked in an OBGYN office for about 10 years and worked as a supervisor in long term care. I graduated from Albany State with my RN in 2018, through their LPN to RN bridge program. I have always known I wanted to become a nurse practitioner therefore once I completed the RN program I continued and did their RN to BSN program. During this time, I began working in GYN Oncology. After completing the BSN program, I applied for the MSN/FNP program through Albany State and will be completing this program in the next month. I am very excited to be able to work as a Nurse Practitioner using the skills that I have gained from being a nurse and using the knowledge I have gained while doing clinical through the MSN program.
