| Median, Standard Deviation Workshop                          |             |                    | The workshop equips attendees to interpret graphs, make decisions based on statistics, and apply these concepts. It covers graphing linear, quadratic, and exponential functions using calculators, software, or by hand.                                                                                                                                                                                                                                                                          |
| Graphing Functions/Mean, Median, Standard Deviation Workshop | Math Center | October 22 @ 1 pm  | In person-West Campus, Building I, Room 110<br><br>The workshop equips attendees to interpret graphs, make decisions based on statistics, and apply these concepts. It covers graphing linear, quadratic, and exponential functions using calculators, software, or by hand.                                                                                                                                                                                                                       |
| Finding Zeros of Polynomials Workshop                        | Math Center | October 27 @ 1 pm  | In person-West Campus, Building I, Room 110<br><br>The Finding Zeros of Polynomials Workshop helps participants understand methods for finding roots of polynomial equations. Techniques include factoring, synthetic division, and the Rational Root Theorem.                                                                                                                                                                                                                                     |
