Darton College is committed to protecting the privacy of its students, employees, and alumni, as well as other individuals associated with it. At times the Institution will ask you for your Social Security number. Federal and state law *requires* the collection of your Social Security number for certain purposes such as those relating to employment and student aid. Whenever your Social Security number is requested, the electronic or physical form used to collect your number will be clearly marked as to whether this request is voluntary or mandatory.

Further, the Institution is required to have a valid Social Security number before an individual can be entered into any business system involving financial transactions. Thus without your Social Security number, the Institution cannot grant an assistantship or waiver, or provide employment. Providing the Institution with your Social Security number in advance is the safest way to ensure that these services are available with the least delay.
