- HADM 3303 US Health Care Systems - eMajor Only** (3-0-3)  
 Fundamental concerns such as cost, access, quality, financing, health workforce and public health represent key topics. We will apply these topics or problems to real-life situations. The approach will be purposeful in allowing the successful student to recognize how these topics interact with each other within the whole health care system.
- HADM 3304 Health Care Communication - eMajor Only** (3-0-3)  
 There is a growing awareness that communication not only affects, but is inextricably linked to issues of health and medicine. This is true on a personal level in the way patients and caregivers interact in the examination and hospital room. It is also true on an organizational level in that policies and community relations affect the way health care is provided and the way people feel about providers. It is also evident in media campaigns that seek to educate people about health.
