Learning contracts are developed jointly by the student and Field Instructor at the beginning of the semester. Students and the practicum agency share joint responsibility in selecting field activities and tasks that ensure mastery of all program goals and practice behaviors. The third column details how the BSW Field Instructor will know or measure the student's performance. Measurement may occur through discussions, observations, or the student presenting data or information from the specified task in the second column. The student and Field Instructor must sign the initial approval page prior to submitting.

At the conclusion of the semester, the Field Instructor will assess the student's level of performance for each *practice behavior indicator* in the last column. The Field Instructor should discuss the final evaluation with the student. It is permissible and encouraged to type/write notes detailing feedback and growth opportunities. Student performance will be rated according to the following scale:

0 = Unsatisfactory/Not Applicable (no evidence of practice behavior/there has not been adequate opportunity to complete the practice task[s] or behavior)

1 = Emergent Performance (*some evidence of the practice behavior beginning to emerge*)

2 = Marginal Performance (*Meets minimum level of performance in demonstrating practice behavior.*)

3 = Meeting Performance Expectations (*efforts consistently demonstrates practice behavior at an acceptable level of performance for a BSW student; this is the minimal expected level of performance for all BSW students*)

4 = Exceeding Performance Expectations (*efforts consistently exceed expectations in demonstrating the practice behavior through exceptional performance.*)

***NOTE: Not Applicable** -*Only if there has not been adequate opportunity to complete the task or objective (appropriate at mid-term, but inappropriate at end of the semester)*

DIRECTIONS: Detail activities and tasks that can be performed within the agency that will help master the behavioral competencies and achieve the overall course outcomes. Students should use their knowledge of the agency, discussion with their TS/FI and others within the agency. Be sure to look at ALL other course assignments and consider how you can incorporate them into the LP.
