The mission of the Academic Success/Learning Support Unit is to provide broad-based interdisciplinary support services to students as they begin their enrollment into college credit courses. For those who need more help than others, foundations courses will be available. For students who are more "college ready," co-requisite courses will accompany regular college credit courses giving students access, retaining them and helping them achieve their goals of graduating from the university. This unit also aims to promote high levels of student development by providing learning communities which encourage continuous learning and persistence to graduation. All programs, activities and services mentioned support the mission and the goals of the Academic Success/Learning Support Unit.
