

ASU Graduating Student Survey Report

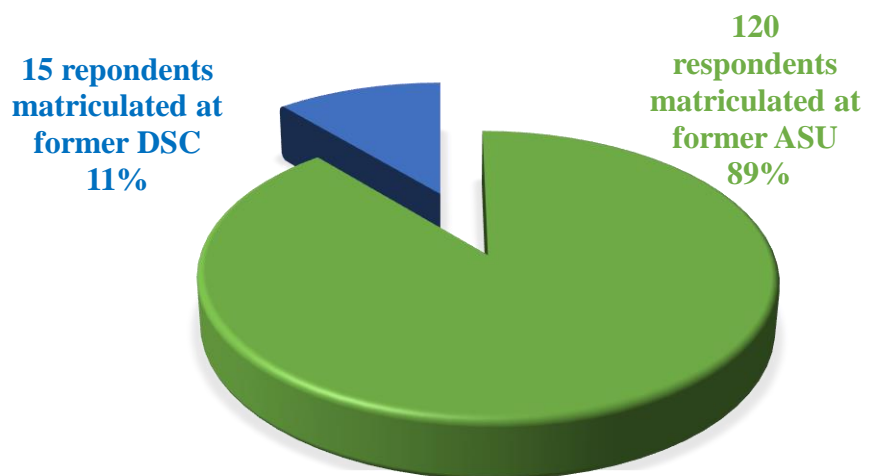

Survey Report Overview

This report is a summary of the ASU Graduating Students Survey administered to the first graduating class of the newly consolidated Albany State University. Students receiving the survey began their matriculation at the former Darton State College and the former Albany State University. The students received the survey via mass mailing to their institutional email address. What follows is a description of how the survey was constructed, demographic information on the sample of student respondents, and selected highlights from each section in the survey. A full pdf report of all responses is located in the appendix of this document. Raw data responses are also available upon request.

How the survey was constructed

The ASU Graduating Students Survey was administered through Baseline. Baseline is a part of the Campus Labs Software Program and is used as a portal for survey development, analysis, and administration. The survey consisted of 102 questions centered on four different themes: Degree Program Information, Student Experience, Student Satisfaction and Activities Following Graduation. Specifically, the themes reflected varying aspects of the institution and were designed to gauge students' experiences and satisfaction with Albany State University while pursuing their degree. Demographic information was also collected at the end of the survey and students were asked to provide primary contact information if they desired to hear about news and events concerning ASU. The specific categories used to group survey questions were as follows:

- Student Demographics
- Completion Information
- Degree Program Experience
- Degree Program Effectiveness
- Degree Program Satisfaction
- Student Services
- Career Services
- Activities Following Graduation
- Employment Information
- Advancing Education Information
- Overall Experience
- Legacy
- Contact Information (optional)

Description of Sample

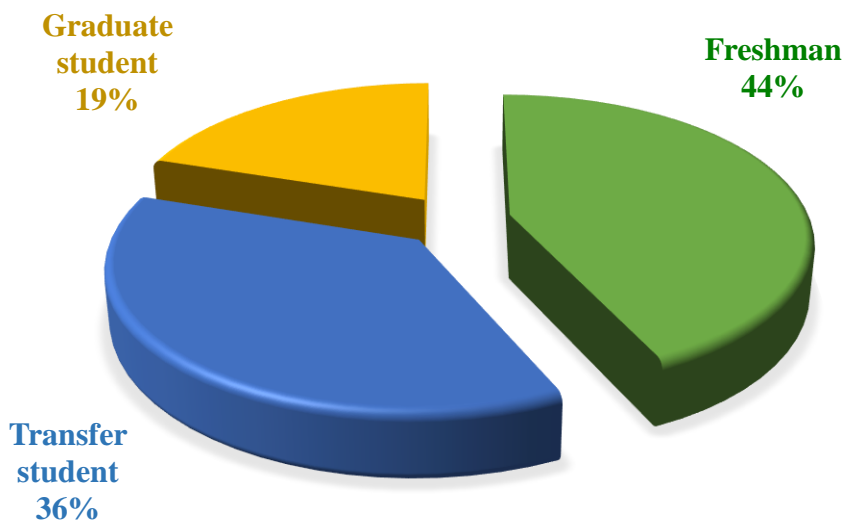

All graduating students were invited to take the ASU Graduating Students Survey. The invitation was sent to 689 students. Of the 689 graduating students surveyed, 135 students (120 on the Radium Springs Campus and 15 on the Gillionville Campus) responded for an overall response rate of 20%.

Of the 135 graduating students responding to the survey, 99 students provided demographic information. Eighty students (81%) reported as female and 16 students (16%) reported as male.¹ Additionally, the majority of respondents were 25 years of age or older (53%), enrolled at ASU as a freshman (44%), and were the first in their family to attain a bachelor's degree or higher (56%).

21-24 years old	43	43%
17-20 years old	4	4%
16 years old or younger	0	0%
Total Respondents	99	

44% of graduating students began their matriculation at ASU as freshman.

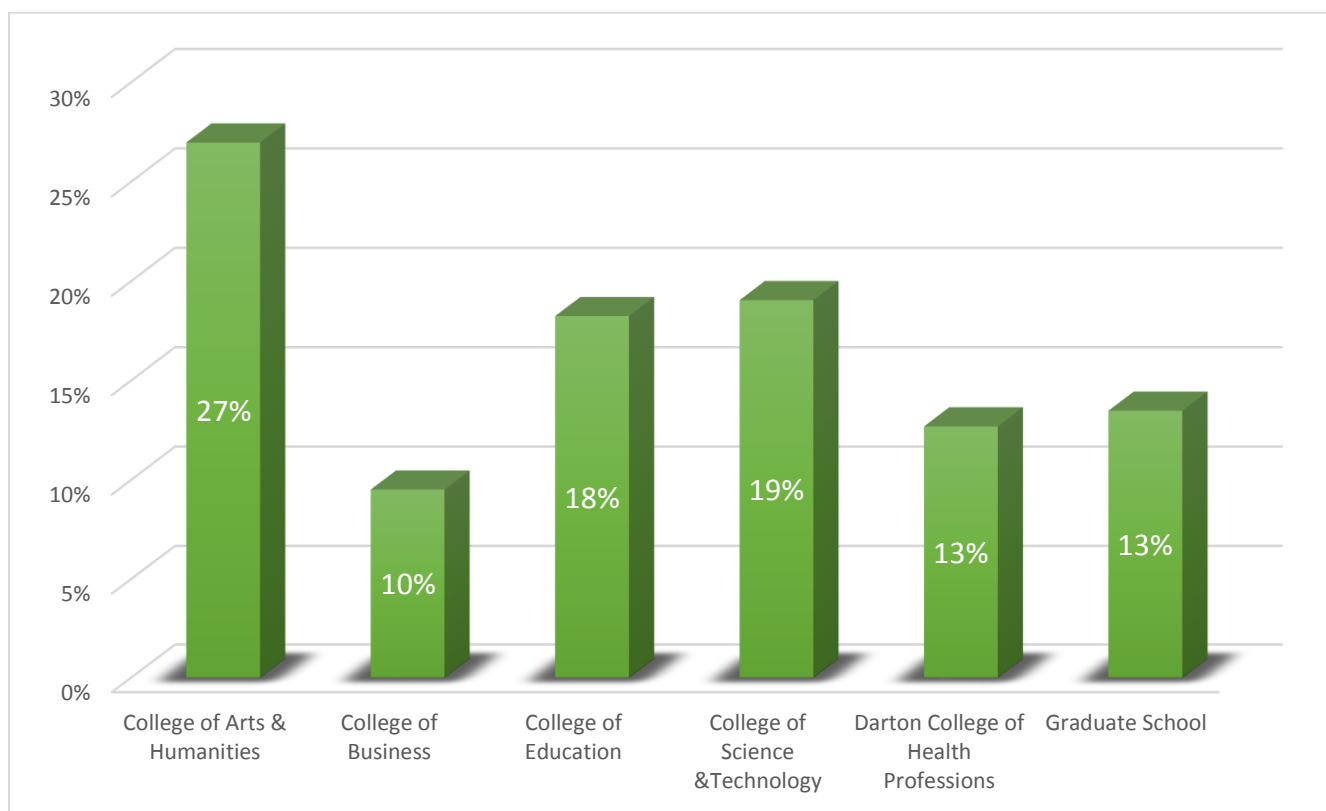

What was your student classification when you first enrolled at ASU?

¹ 3% of the students responding to the gender category question preferred not to answer.

Completion Information

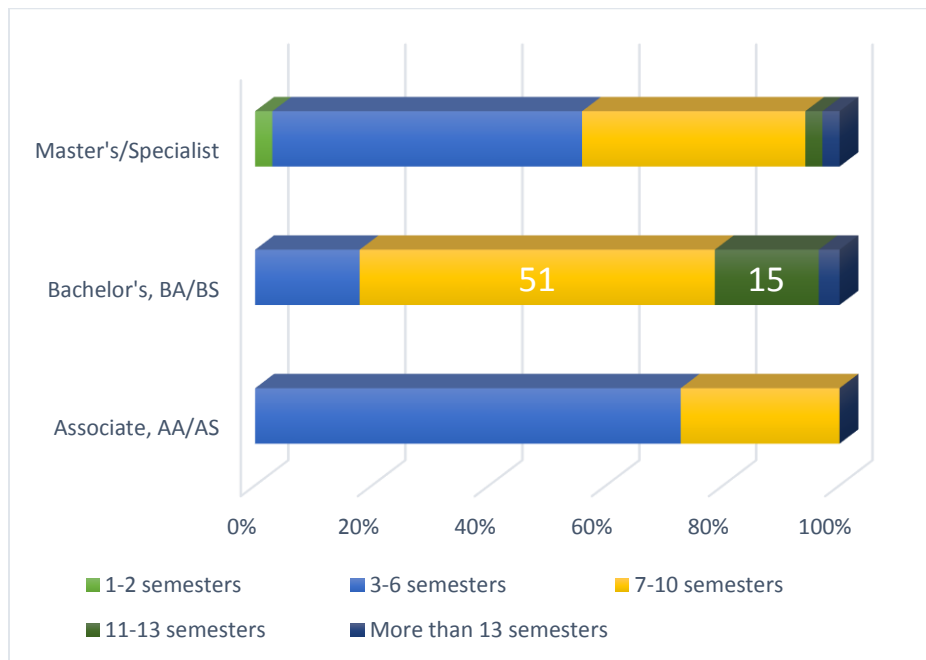

128 students responded to the questions in the *Completion Section* of the survey. Of these students, 27% anticipated receiving degrees from the College of Arts and Humanities. While this college represented the largest combined number of degrees awarded, the College of Education had the most single reported anticipated degrees (9). The Graduate School had the second highest anticipated degrees awarded (8).

Conclusions

80% of student respondents believe that ASU provided a **good education for the money.**

The data retrieved from this survey reflect experiences of students who began matriculation at two separate institutions. In light of this, analysis should be taken soberly, with the understanding that responses will be skewed in this way for the next few years. Additionally, individual academic programs and units must continue to survey students and stakeholders within their areas, using data and information collected from the ASU Graduating Students Survey as a guide for deeper examination. What follows is a list of recommendations for consequent administrations of this survey.

- Survey should be mandatory for all potential graduates
- Questions should be added that detail or parse out experiences related to consolidation
- Follow-up with students that left contact information
- Creates a graduating student database and construct a 3 and 5 year follow-up survey

I will continue to encourage people to consider ASU for graduate school, but the admissions and financial aid departments must address the issues of poor communication, customer service and response time. These factors could be the reason why the admission rate is on the decline as well.

Q102. Do you have any additional comments you would like us to know to improve student progression at ASU?	
Count	Percent

19 19.00%  Yes (please explain)

Count	Percent		
1	5.26%		
1	5.26%		Albany State needs to clean house and hire new staff members and faculty. They are stuck in their old ways and used to doing things the way they have always been done which is hindering the students. The employees at ASU are lazy and have no compassion for students. They need sensitivity training.
1	5.26%		Dr. Rogers is an amazing advisor. He handled every issue I had very quickly and efficiently without pushing me off on someone else. Without him I doubt I would have graduated.
1	5.26%		Focus on the potential that the current students have and use that as an asset. There are a lot of entrepreneurs on campus from clothing designers to videographers
1	5.26%		Have professors that actually care about the students as well as other administrators & faculty members. Listen to what the STUDENTS want and not what just looks best for the school as a business or benefits particular people in hopes of funding.
1	5.26%		Horrible experience, mostly with instructors rudeness and unavailability. Also I made an A in a class and was given a B, went up the chain of command and my grade is still listed as a B. I give up. Just glad to be done. Very unorganized and unclear who to speak with for different problems.
1	5.26%		I look forward to my continued studies at ASU
1	5.26%		I really enjoyed my professors at ASU and they kept me encouraged in completing my degree although there were many times where I wanted to give it. They care about the students and it's not just a job to them.
1	5.26%		I would love to see better customer service and professionalism in the functional areas of ASU including the registrars office, financial aid, fiscal affairs(business office), etc.
1	5.26%		Just completely revamp. The registration process is horrible along with the financial aid, the attitude of the staff and this whole merging thing
1	5.26%		Never forget about the students. Stop taking the HBCU feel out of Albany State just because it was merged with Darton.
1	5.26%		Pleas provide an improved food quality with late and earlier hours, and please allow the library to remain open if one has a ram i.d
1	5.26%		Please acknowledge more of the students opinion on student life and academics. The different changes such as housing and the merger has had and deep effect on the student body at Albany state. However, it seems the voice of the students and the alumni has not been heard of some of these changes. The president should be more involved with the school events and have some spirit about it.
1	5.26%		Provide more scholarships to international students
1	5.26%		Students need to understand their rights and who to go to for issues.
1	5.26%		The Harnett building is in desperate need of being updated, equipment, classroom, and facilities.
1	5.26%		This survey is extremely long and very personal. Also the questions are very random.
1	5.26%		You need to improve professors, teaching was not their main job and they let us know it and were always unavailable and made us feel as if we were a hindrance when we contacted them
